Roads of Remembrance

A TYDIOS! DOSG, LAKE, AMO Mountain Scene in the Lake Tahoe Country

Copyright, 1919, The International Syndicate. UNITED STATES ARMY STAGES BIG CROSS-COUNTRY MOTOR DEMONSTRATION

The United States Army is to make the biggest good roads demonstration the country ever saw. An army motor truck train will start from the White House July 7 for San Francisco. It will follow the Lincoln Highway and make some detours however. The train includes five passenger cars, thirty-five trucks of all types, two ambulances, six motorcycles, two tank trucks, two kitchen trailers, two water tanks, one engineer shop truck, one officer work truck and one searchlight truck. In fact the people "back home" will see just what the Army had in France in motor equipment. Secretary Daniels of the Navy invaded the Mississippi River with navy demonstrations so Secretary Baker will show the folks something in the way of Army transportation, and at the same time the need of good roads in time of war or peace.

must be, to express national glory, will lead from one famous battle flower poerry is in those words! With those words! With those words Great Britain challenges the United States for over their plans are being put forward for the linking up in an intelligent way flowed are linking up in an intelligent way flowed are linking up in an intelligent way flowed are flowed are linking up in an intelligent way flowed are flowed as a flowed and flowed and from one famous battle flowed and state Governments of the way. The people along the route have promised, he reports, to improve and spread as spread in the flower are flowed and flowed and flowed are flowed and flowed and flowed and flowed and flowed and state Governments of the way. The people along the route have promised, he reports, to improve and ings of all sorts, as well as scholar production and personal love; and building prometry to another. The great army that it is a great flower of those who gave their lives to their country. The sworld proposed in the flower of the way in which the linking up in an intelligent way flowed as a flower of the way. The people along the route have promised, he reports, to improve and promised in the flower of the way in which the flower of the way. The people along the route have promised to another or from one came that the follower are the former president.

This would provide for a country on a road-building promised to another or from one came their lives of their country. The sworld in the flower promised the reports, to improve and promised the reports, to improve and promised the reports, to improve and promised the reports, to improve the flower promised the reports, to improve the flower promised the reports of these who gave their lives to their country. The sworld promised the reports of these who have the flower promised the reports of these who have the flower promised the reports of these who there not a fine opportunity in the making of these roads to let the peer ple of the communities through which they pass have a part—and a big part—in the making by the planting of Memorial Trees in the proper locations. The besuites of the roads cations. The besuites of the roads are situated to proper locations. The besuites of the roads are situated to pay the planting together separate memorials by giving all relation to each and each relation to all; beautiful and artistic: of France are a legend. What are we going to do in this country? Memorials of various kinds there will be. Monuments too but do monuments as setting for architecture and saturary, for guns and other war glory. It is the latter that should be perpetuated as Charles Lathrop Pack.

Of country and town life; contrifugal stands a Cross of Sacrifice and an altar-recently. He then went on say that

NEEDS MARKET PLACE FOR COTTON FARMERS

The annual question of an adequate cotton market, where the farmers of this section can conveniently exhibit this staple to local buyers, looms on the horizon once more, confronting the mayor and board of city commissioners, and Mayor Freeman states that it has caused him a few sleepless hours in attempting to devise a means whereby the city of Ardmore may do something tangible in the matter. Ever since Ardmore became an es-

tablished city, the bulk of cotton marketing from wagons has been at the cornor of Main and Washington streets. Before the days of automobiles and before Ardmore had increased in population to its present proportions, this was all well enough, but the mayor states that in view of present conditions something should be done that would keep this corner clear during the cotton seagon, as it is the busiest spot in town. one where more vehicles pass every day than at any other one corner in the

Mayor Freeman believes that there street, but a short way removed from Main that might be secured, and he hopes that some means may be devised to secure one of them. The city will
